APPLIED EXPERIENCE

Full Stack Developer/Cross Functional Program|Co.Lab   September - November 2021
- Completed a 8 - week cross-functional program focused on bringing together Designer, Developer, and Project Manager in order to design, implement, and develop a full-stack application
- Collaborated with another developer, and was involved in the process of designer-developer hand-offs

Front End Developer|Peckish   August 2021 - Present
- Working with Backend Developer and Project Manager to implement specifics designs for ui and ux interface using Figma
- Wrote, modified, and integrated code with React.js components using styled-components to have a simplified, readable, and modular codebase

Full Stack Developer/Full stack Development Bootcamp|Savvy Coders   June - September 2021
- Completed a 12 - week full stack immersive bootcamp focused on JS – DOM interactions, managing collections of data by composing functions, receiving data from APIs, and converting a traditional static site into a Single Page Application.
- Gained knowledge of programming languages and frameworks including HTML, CSS, JavaScript, Node.js, Express, MongoDB, and Jasmine
- Identified and communicated technical problems as scrum master using Agile processes and solutions with fellow team members

PROJECTS

CurrGames Curated platform built for those interested in video games   github.com/danielmason89/curr-games
- Developed and designed a front-end application using React.js that allows users to see new and upcoming video games
- Built a responsive frontend deployed to the cloud using Netlify and Heroku to be accessed in real time
- Utilized Node.js and Express.js with dotenv to make requests to third party api with Cors to enable users to perform a search based upon specific parameters

PetConnect Dog adoption service to aid users with finding a pet   github.com/Co-Lab-You-Belong-in-Tech/pet-connect
- Built and set-up routing for a dog adoption service that utilizes a JSON object to direct users towards their preferred breed of dog, with-in a cross-functional team of 4, during Co.lab's 8-week cross-functional program

Mealtime Single Page application that helps save time in the kitchen   github.com/danielmason89/MealTime
- Developed and designed a full-stack application using a 'MERN' stack that allows users to get access to recipes specific to their respective dietary and time restriction needs, within Savvy Coders' 12-week full stack development bootcamp
- Created and deployed a database using MongoDB Atlas cloud database to store and access users' data online
- Utilized CORS middleware with Node.js CRUD server, Express.js, and Axios to perform RESTful api calls to fulfill a user's requests

WORK EXPERIENCE

Back End Developer|Seymour Accessibility   November 2021 - Present
- Prepare MongoDB database for Frontend Developer to store data to transfers files from one client to another using slack's javascript library, Bolt.js with a noSQL dataset
- Assisted Project Manager with implement an agile workflow through using Jira and having weekly sprint ceremonies, and looking at what specifics technologies and platforms best fit projects needs
- Prepared, tested, wrote code with Frontend developer to prepare a slack

Full Stack Developer|PetConnect   September - Present
- Wrote, modified, and integrated code using React.js, Material.ui, and styled-components with another full stack developer to implement specifics designs for ui and ux interface using Figma
- Research and evaluate solutions with Project manager, Designer, and fellow developer
- Utilized agile methodologies, workflow, incorporate mentors and fellow team members' feedback from sprint to sprint

Saucier|Joey Lansdowne   Present
- Honed communications skills in working collaboratively to efficiently complete tasks on time
- Maintain and record inventory of saucie station, to reduced food waste by 10%
- Created a daily workflow to maintain kitchen cleanliness and efficiency
- Entrusted with training employees in preparation, cooking , and handling of food
- Worked closely with head chef and sous-chefs to improve skills in culinary arts
- Supervised and trained new staff, mentored them with culinary best practices
- Worked with management to implement cost saving strategies
- Entrusted with opening prep hall on a regular basis
- Responsible for workplace cleanliness, efficiency, and timely service during on and off peak hours

TECHNICAL SKILLS

- **Languages**: HTML5/CSS3, JavaScript
- **Libraries**: React.js, Material.ui, Redux
- **Framework**: styled-components, Jasmine, Jest, GraphQL, Express.js, Bolt.js, Vue.js
- **DataBases**: SQL, MongoDB
- **Tools**: Version Control, Github, VSCode, Figma, Insomnia, CSS Flexbox/Grid, Firebase, Axios, CORS, Figma

SKILLS & ATTRIBUTES

- **Language Skills: English -** Fluent | **French -** Basic proficiency
- **Office Tools:** MSOffice, MSExcel, MSWord, MSPowerpoint, MSOutlook
